

## **GBS Finance advises ASM Industries on the entry of CS Wind into its shareholding**

ASM Industries is now part of CS Wind, the world's largest wind tower manufacturer. The entry of CS Wind is part of the growth plan of ASM, as Adelino Costa Matos, CEO of the company, points out "a strategic step that allows us to continue our path of growth and consolidation in a very challenging and demanding industry".

### **About ASM Industries**

ASM Industries is a Portuguese company with extensive experience in the manufacture of metallic complex structures as onshore and offshore wind towers.

The entry of CS Wind, and the funds derived from the transaction will allow the Portuguese company to invest in the construction of a new monopile factory in Aveiro, creating a production cluster for renewable energies in Portugal to serve the entire European market and strengthen its strategic position within the sector.

### **About CS Wind**

CS Wind is a world manufacturer of wind towers, listed company with a turnover of around €800 MM per year, more than 1,000 employees and factories in Vietnam, China, Malaysia, Turkey, the United States and now in Portugal, and hopes, with the acquisition of ASM Industries, to advance in its strategy to dominate the European offshore market.

**GBS Finance** acted as financial advisor to ASM Industries.
